

## COVID-19 PANDEMIC

**ALL FAITAL OPERATIONS SHUT DOWN UNTIL APRIL 3, 2020**

Dear Fital Friends,

The COVID-19 Pandemic is now global and it is causing several effects on the entire supply chain we are a part of.

The current situation in Italy and more specifically in the Lombardy region, where our HQ, R&D and one of our factories are located, has dramatically deteriorated in the past weeks.

It has been our main priority to keep all our employees and partners safe while working during this very difficult time for our country and region, yet it is now the time to do more and in accordance with the Decree of the Italian Prime Minister of 22 March, 2020 all non-essential businesses are required to shut down and only those functions which can operate remotely may be maintained active.

**In consideration of all the above reasons we are shutting down all our Italian facilities and our manufacturing operations at our factory located in Salgótarján (Hungary) from March 23 to April 3, 2020 included.**

PROFESSIONAL LOUDSPEAKERS

**All Operations will resume, as permitted by the then current status of the Covid-19 situation, on April 6, 2020.**

During the shut-down period our entire sales team will remain available and continue working remotely along with all those functions which we were able to setup with teleworking technologies.

We would also like to take this opportunity to state our deep appreciation for all those who continue working relentlessly in the hospitals and all institutions involved in taking care of the people who are battling with this terrible virus induced disease. THANK YOU!

We will get through this and we will get back to work on making some of the best loudspeakers in the world very soon!

Thank you for your support and understanding during these unusually difficult times and we would like to reinforce that everyone should follow the recommendation

**“Stay Home, Stay Safe”!**

The FaitalPRO Team
