COVID-19 PANDEMIC

**ALL FAITAL OPERATIONS IN ITALY REMAIN ON SHUT-DOWN UNTIL
MAY 3, 2020**

Dear Fital Friends,

As already communicated the COVID-19 Pandemic is now global and it is causing a severe impact on all our operations.

The current situation in Italy and more specifically in the Lombardy region, where our HQ, R&D and one of our factories is located, has dramatically deteriorated in the past weeks prompting the Italian Prime Minister to issue a specific decree (DPCM) that determined the complete shut-down of all non-essential businesses in Italy which ultimately had effect on all our operations which require the physical presence of our employees and the use of instruments/machinery which cannot be operated remotely.

In accordance with the latest decree, **all Fital operations in Italy remain on shut-down and will resume, as permitted by the then current status of the Covid-19 situation, on May 4, 2020.**

PROFESSIONAL LOUDSPEAKERS

During the shut-down period our entire sales team will remain available and continue working remotely along with all those functions which we were able to setup with teleworking technologies.

We would also like to take this opportunity to state our deep appreciation for all those who continue working relentlessly in the hospitals and all institutions involved in taking care of the people who are battling with this terrible virus induced disease. THANK YOU!

We will get through this and we will get back to work on making some of the best loudspeakers in the world very soon!

Thank you for your support and understanding during these unusually difficult times and we would like to reinforce that everyone should follow the recommendation

“Stay Home, Stay Safe”!
