

PROFESSIONAL LOUDSPEAKERS

Prolight+Sound Press Conference

In occasion of the European premiere of our products we have the pleasure to hold a press conference that will be held at the Prolight+Sound 2006 trade show.

FaitalPRO unveils its new and complete line of Neodymium Professional Drivers. After 50 years of loudspeakers manufactured with passion and care we specifically engineered three new lines of drivers, our Professional Neodymium Woofers, our High Performance Neodymium Woofers and our Neodymium Compression Drivers. As a result of no compromises and pure technological developments FaitalPRO is today able to offer extremely lightweight drivers that yet deliver more power and reliability than ordinary loudspeakers.

The press conference will be held on: Friday, March 31st, 2006 from 15:00h to 16:00h.

The room will be: "SYMMETRIE 4" in hall 8.1
